

DOUBLE M

ENGINEERING · CONTRACTING · INTERIOR · EXTERIOR

Engineering. Designing. Building better.

Integrated engineering, contracting and design from concept to handover.

One team. Design to delivery.

Double M is positioned as an integrated engineering, contracting and design company. The purpose is simple: keep creative intent, technical decisions, procurement and site execution connected throughout the project.

CLARITY

Clear scope, documentation, decisions and communication.

CONTROL

Design intent protected through procurement and execution.

CRAFT

Attention to materials, junctions, lighting and finishing.

Complete solutions under one roof.

Project story + interactive experience

Private Villa / Complete Delivery

Illustrative concept showing the integration of architecture, interior design, exterior design, landscape and contracting.

The website includes interactive 360° interior and exterior scenes with navigation hotspots.

SCOPE

Design + Build

DISCIPLINES

Interior + Exterior

STATUS

Concept Visual

EXPERIENCE

360° Virtual Tour

Concept imagery is not presented as completed-project photography.

From vision to handover.
